# Create a Horticulture Children's Story Book

Create a children's book completely covering one of the topics we have covered in class.

- ❖ Topic you can choose any topic that we have covered in class. A quick google or internet search for "children's books about plants" may help you with some ideas. You can also watch several online videos of children books to help spark your creative thinking here is an example <a href="https://www.youtube.com/watch?v=zxl6Kiy7NPI">https://www.youtube.com/watch?v=zxl6Kiy7NPI</a>
  - How a seed grows (germination)
  - From Seed to a plant
  - Sleepy plants (when plants go dormant)
  - Why there are flowers (purpose of a flower)
  - Traveling seeds (how seeds are spread)
  - How does fruit grow? (fruit development)
  - The lonely plant (weeds)
  - In a nutshell (inside a seed)
  - Other ideas types of plants, plant life cycles, angiosperms v. gymnosperms, monocots v. dicots, propagation, reproduction, or nutrients/ fertilizer

### **Project Requirements**

- Can be drawn OR completed on the computer.
- > Must be in color
- Must have at least 10 single pages (NOT front and back)
- Each page needs at least 1 illustration
- Must have a story line / pages must have good flow
- Must be on a  $1^{st}$  3rd grade reading level. (use the internet to search words appropriate for this age).

#### Extra points

- ✓ Submit a video of yourself reading the book
- ✓ Even better if your video is of you reading it with a child of the target age!

#### **Examples**

> These are two examples on different topics. Keep you wording simple and use cartoon or real life illustrations.

# BO BIRD IS SPREADING SEEDS. HE HAS PICKED THIS BERRY IN HIS BEAK. HE WILL CARRY IT FAR AWAY.

Plants need to sun to grow. They lean and stretch and bend. The sun helps them grow tall and strong.

## Horticulture Story Book Grading Rubric
