

2021-2022 Discussion Meet Topics

1. COVID revealed several cracks involving the processing of livestock. How can Farm Bureau policy support easing government regulations to ensure long-term economic viability for local animal processing facilities, while ensuring the health of workers and that a healthy product is still delivered to consumers?
2. Studies show more farmers and farm families are experiencing stress and mental health issues. What can we do to proactively promote good mental health in both farmers and their communities?
3. Agriculture is one of the most hazardous industries. What can we do to create a more preventative, rather than reactive, approach to farm safety in our communities?
4. As the world population increases, so will the need for renewable resources. On a local level and across the globe, how can Farm Bureau help farmers and ranchers continue to increase their efficiency in the use of valuable resources and transition to “Green Energy” practices on their farm or ranch?

Awards

Area Finalists (12)

Two per Area - \$50

State Finalists (4)

\$100

State Winner (1)

\$250

Sponsored by:

Young Farmers & Ranchers
